# REAL ID ★

## WHAT IS REAL ID?

- The REAL ID Act, passed by Congress in 2005, enacted the 9/11 Commission's recommendation that the Federal Government "set standards for the issuance of sources of identification, such as driver's licenses." The law requires a Real ID to travel through airport security or to visit a federal base or office building.

## HOW DOES REAL ID AFFECT THE PRIVACY OF MY INFORMATION?

- Each state continues to issue its own licenses, maintain their own records, and controls access to those records.
- REAL ID does not create any sort of federal database of driver's license information.
- REAL ID makes our identity documents safer, more consistent, and secure.
- REAL ID is a national set of standards, not a national ID card.

## ACCEPTABLE OTHER DOCUMENTS INCLUDE:

- Military Identification Cards
- Valid US Passports

## HOW CAN I TELL IF MY CARD IS A REAL ID?

- If the card does not have the gold star marking, it is not REAL ID-compliant and won't be accepted as proof of identity in order to board commercial aircraft.
